SUMMARY

Front-end developer with 2.5 years of experience specializing in responsive web design and user-friendly web applications. Proficient in modern technologies like ReactJS, Redux, JavaScript, and Tailwind CSS, with a proven track record of building e-commerce platforms and dynamic data management systems. Skilled in optimizing websites for desktop and mobile devices to enhance user engagement and collaborating with design tools like Figma to create visually appealing interfaces.

WORK EXPERIENCE

Project Engineer | Wipro.Ltd

Dec 2021 - May 2023, Hyderabad, India

- Developed dynamic, responsive user interfaces using HTML, CSS, JavaScript, and ReactJS, ensuring optimal performance and a seamless user experience across devices.
- Engineered modular, reusable UI components that streamlined development processes and maintained design consistency throughout web applications.
- Collaborated with cross-functional teams, including designers and backend developers, to align project goals and integrate user feedback for continuous improvement.
- Implemented robust debugging and optimization practices, proactively identifying and resolving issues to enhance overall application performance.
- Embraced Agile workflows by actively participating in daily stand-ups, sprint planning, and retrospective sessions, which ensured timely delivery of high-quality code.
- Utilized Git for version control to manage code updates effectively, promoting efficient team collaboration and maintaining a stable, scalable codebase.

Front-End Developer | KR PETEYE.LLP

Jan 2024 - Present, Hyderabad, India

- Responsive Website Development: Engineered responsive websites optimized for both desktop and mobile devices, ensuring fast load times and seamless user experiences across platforms.
- Interactive UI Construction: Built dynamic user interfaces using HTML, CSS, JavaScript, ReactJS, and Tailwind CSS, which enhanced user engagement and interactivity.
- Data Management System Design: Designed and implemented a robust data management system for dynamic web applications, enabling smooth data flow and reliable user interactions.
- E-commerce Platform Enhancement: Contributed to the development of an e-commerce platform by integrating advanced UI/UX features such as intuitive navigation and interactive product displays to improve the overall shopping experience.
- Collaborative Design Implementation: Partnered with designers using Figma to transform high-fidelity mockups into pixel-perfect, functional web pages, ensuring design consistency and usability.
- Version Control & Team Collaboration: Utilized Git to manage code changes effectively, streamlining collaboration with other developers and maintaining a stable, scalable codebase.
- Professional Expertise: Front-end developer with 2.5 years of experience specializing in responsive web design and user-friendly web applications. Proficient in modern technologies like ReactJS, Redux, JavaScript, and Tailwind CSS, with a proven track record of building e-commerce platforms and dynamic data management systems. Skilled in optimizing websites for both desktop and mobile devices to enhance user engagement while creating visually appealing interfaces.

EDUCATION

Bachelor's of Technology in Computer Science and Engineering | Malla Reddy Institute of Technology and Science

Jul 2017 - Aug 2021 • Hyderabad, India

SKILLS

- **Languages :** English, Hindi, Telugu
- **Technologies :** Html, Css, Javascript, Tailwind, ReactJs, Redux, MySql, MongoDB, Git, Jquery, Bootstrap
